Re: 2020 Budget Message

I am pleased to submit for review and adoption the City of Medina 2020 Budget. The Budget is consistent with direction City Staff received from the City Council at their November 18, 2019 Special Meeting. That direction was formed over many previous meeting discussions:

- -November 12th Regular Meeting, after the Public Hearing
- -October 14th Regular Meeting, after the Public Hearing
- -September 23rd Special Meeting
- -August 26th Special Meeting
- -July 22nd Study Session
- -July 8th Study Session

Background:

Since the passage of Initiative 747 in 2001 Medina, like many other jurisdictions in the state, has struggled to maintain the level of service residents expect with its major source of revenue for these services unable to grow at the same pace of rising costs.

I-747 limited annual increases to property tax levies by local taxing jurisdictions to only 1%. By 2018, the City was at a financial crossroads. The cost of providing basic services had been growing faster than the available revenue streams—expenses had risen an average of 4-5% per year while revenue was only growing at an average of 2.5% per year. The City Council had previously been able to balance the budget through aggressive cost-saving measures, identifying additional revenue sources and dipping into reserves. But the City could no longer find efficiencies without impacting service delivery and its sources of reserves were nearly depleted. The City was projected to have a \$500,000 budget deficit by 2020 and a \$3.3 million cumulative deficit by 2025.

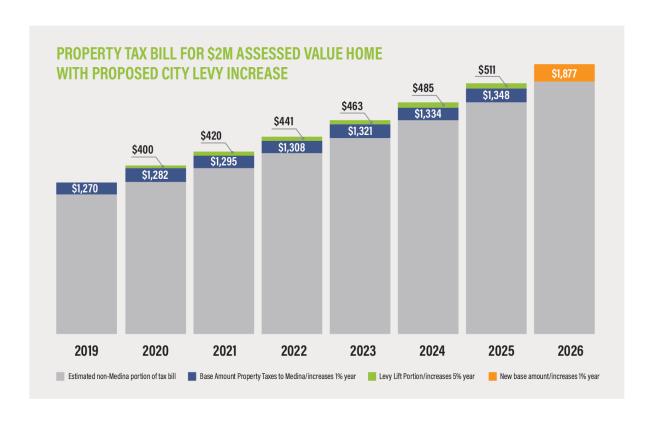

In 2018, Council & Staff began studying solutions for a long-term financial plan. While many ideas for additional revenue sources, cost-recovery directions and expense trimming were discussed; they were small. Cumulatively they lacked the impact to correct the City's financial trajectory without also a significant reduction of core service levels, an idea which the Council was uncertain the community would embrace. A more impactful solution, sale of public property was also discussed but Council felt it was also an idea which the community wouldn't embrace. I-747 does allow for an increase to property tax levies beyond the 1% limit, if proposed to the voters and it is approved by a majority.

March 11th, 2019, the Council approved Ordinance 970 which directed a measure to be placed on the November 5th ballot.

The ballot measure (Proposition 1) was crafted around the following goals:

- Maintain the same service levels provided in 2019
- Create a 10-year solution for financial stability

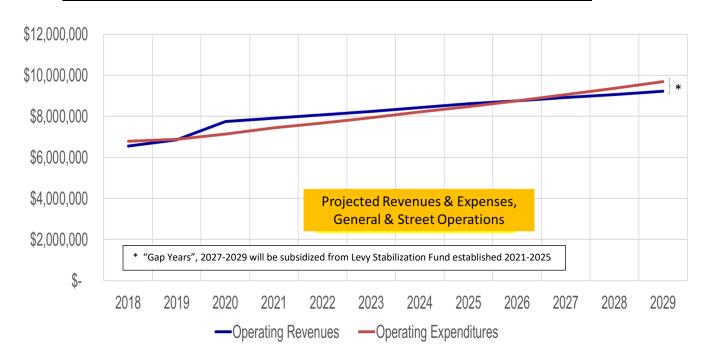

The City decided on a multi-year, permanent levy. The initial "bump" would add \$0.20 per \$1000 AV in 2020; increasing the tax bill on a \$2M tax assessed home, for example, by \$400. The additional overall amount generated from this would be approximately \$900K, would turn the City away from deficit spending and start restoring financial health. Years 2-6 of the levy period would see this amount increased by 5% each year (approximately \$945K, \$992K, etc.). This would keep revenues moving with expense inflation, plus an additional amount to transfer to a Levy Stabilization Fund. This would fill the budget gaps that would arise once the term of the levy measure expired, allowing the City to continue balancing its budget through its goal of 10 years (2029). Once the 6-year levy period was over, the amount collected its final year (2025) would roll into the City's regular (statutory) levy to create a new base that would then only increase by 1% each year as allowed by law.

While this structure created challenges in explaining how it would work to residents, it was important to the City not to create a 10-year solution that required a bigger increase all in one year, just to sit on a large amount of taxpayer money for nearly a decade; but rather to ease in the need over the longest period allowed.

A record voter turnout for an off-season election, nearly 60% was received. During the 3-week period the vote was being counted, from election day to when the results were required to be finalized, the measure remained too close to call. Ultimately the measure passed, 51% to 49%.

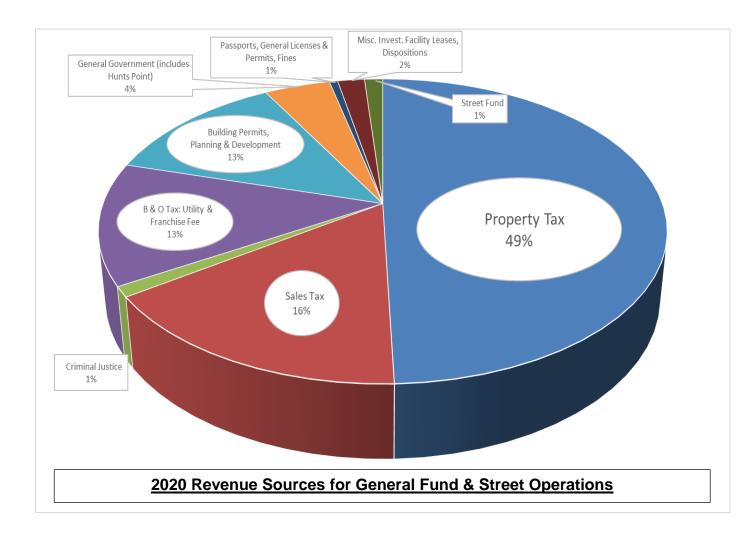

Revenues Compared to Expenses Reflecting Passing of Levy Lid Lift:

The 2020 Budget was built on the following assumptions:

General Fund & Street Operations Revenues

- Property tax is budgeted at one percent increase from 2019's total receipts, as allowed by law, plus increases caused by new construction & improvements. *An additional \$943K is also included as a result of the levy lid lift.*
- Sales Tax revenue assumes a 1.9% (as projected by KC Office of Economic & Financial Analysis) increase for 2020 based on actual receipts for the last rolling 12 months. In order to keep the estimate conservative, spikes in receipts caused by large one-time, destination-based tax purchases were smoothed out.
- Utility Tax Rate continues at 6% plus a small inflationary adjustment. A full year was included for 2019's new water/sewer tax; collections had started early 2019.
- Planning and Development revenue is not projected to increase over 2019's
 actuals due to projected slowing of projects based on recent slowing of property
 sales that would lead to larger rebuilds. Currently, expenses are budgeted at
 a 96% cost recovery level with a fee adjustment anticipated to improve that
 sometime in 2020.
- Hunts Point will continue to contract for Police services at the same level.

General Fund & Street Operations Expenditures

- 52% of 2020's budget is spent on State Mandated Public Safety & an additional 26% for other State Mandated Services. 26% of the budget is spent on Essential Services that support the mandated services. ONLY 1% OF THE BUDGET IS SPENT ON DISCRETIONARY SPENDING & SPECIAL COUNCIL INITIATIVES.
- As per the levy lid lift measure, the City is fulfilling its promise to voters of maintaining the same services provided in 2019. The majority of budgeted expenses, 87% is spent on labor, people providing those services to the community. Of that, 2/3^{rds} is direct staff & the remaining 1/3rd is contracted labor.
- Direct staff wage increases are reflected in Ordinance 978 attachment A, 2020
 Salary Schedule:
 - o 3% per contract Officers, Sergeant & Captain
 - o 2% per contract Teamster represented Clerical & PW staff
 - o 1.7% CPI-W Unrepresented employees

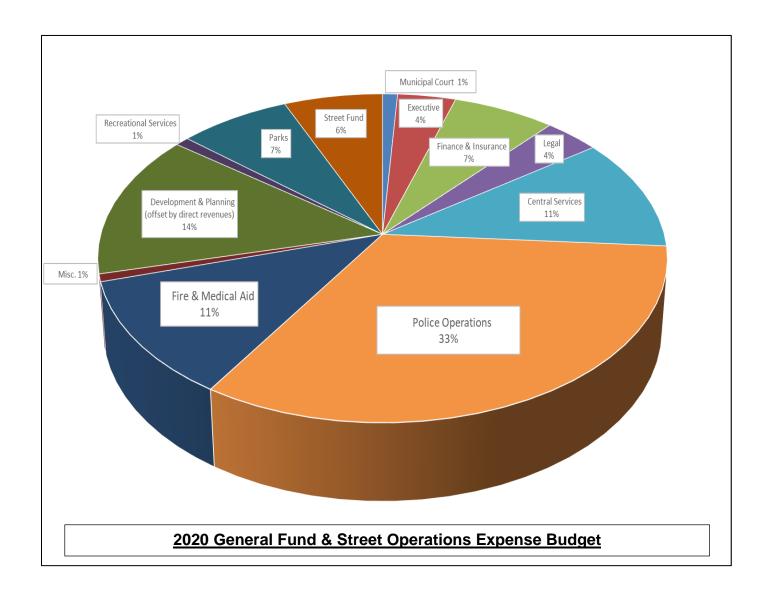

- Medical insurance premium rates are being held to 2019's amounts.
- Contracted labor has only seen mostly minor overall rate increases since larger adjustments were already seen in the prior year.
- The City's fire service contract with Bellevue didn't see an increase in rate because they were unable to negotiate their labor contract in time to pass their wage increases along to the contract cities. This has happened with previous contract cycles, leading to a large increase the following year due to retroactive adjustments. We are anticipating that outcome for 2021.
- Currently Street Operations is split into a separate fund. The City will be working with the State Auditor's Office in 2020 with a goal of merging it into the General Fund. Its sources of dedicated funding have dwindled to a point it doesn't warrant its own fund. Most smaller cities have a blended General + Street Fund.

Tree Fund

• Continues to have a large carryover balance from previous years large fee collections. No major tree replacements are anticipated.

Capital Projects Fund

- With the passing of the levy lid lift, use of Capital Fund revenues to subsidize Street Operations, as allowed by law, will no longer be required to balance the budget as in previous years.
- Assumes Real Estate Excise Tax (REET) at \$760K based on rolling 12-month actuals, less large single sale impact, with a 15% reduction to allow for any continued cooling to the current market.
- A TIB grant is projected for \$315K towards the 84th Ave NE improvement project in front of Medina Elementary.
- The recent passing of the King County Parks Levy will double the amount Medina will see on pass-through grants. We will receive \$50K/year to fund park improvement projects during the levy period (2020-2025).
- \$10K of 2019 funding was reappropriated for the City Hall railing project. It was not completed during 2019 as initially planned and has been rescheduled to 2020.
- Rest of expenses assumes 2020 projects as outlined on CIP list included in this budget adoption packet.
